

ROASTED CHESTNUT +

INGREDIENTS Aqua, Hamamelis, CI 21160, CI 21290, CI 77266, CI 21095, CI 11741, CI 77891, CI 21108, CI 56110.

DESCRIPTION Versatile warm brown pigment. Fits phototypes III - VI according to Fitzpatrick scale. By observing manufacturer's recommendations on pigment implantation you will achieve the most natural - looking results, no matter what technique you use—be it shading or hair strokes. The base is orange. The particles are fine-sized.

The ink is highly liquid and only requires dilution with a special diluent for adjusting the colorant concentration.

BITTER CHOCOLATE +

INGREDIENTS Aqua, Hamamelis, CI 56110, CI 77266, CI 21095.

DESCRIPTION Saturated pigment with a dark tone. Recommended for phototypes IV (Mediterranean) and V (Asian) according to Fitzpatrick scale. The base is orange. The particles are fine - sized. The ink is highly liquid and only requires dilution with a special diluent for adjusting the colorant concentration.

FRECKLE +

INGREDIENTS Aqua, Hamamelis, CI 21160, CI 21290, CI 77266, CI 21095, CI 11741, CI 77891, CI 21108.

DESCRIPTION Brown red pigment specifically designed for working with phototype I (Celtic) according to Fitzpatrick scale. Fits very light / pale skin and pale skin with freckles. Perfect for red haired girls. Unlike Freckle from the main series, does not require mixing with other colors - it can be used in a pure form. The base is yellow. The particles are fine-sized. The ink is highly liquid and only requires dilution with a special diluent for adjusting the colorant concentration.

RIPE WHEAT +

INGREDIENTS Aqua, Hamamelis, CI 21160, CI 56110, CI 77266, CI 21095.

DESCRIPTION Warm blond pigment. Fits phototypes I (Celtic) and II (Nordic) according to Fitzpatrick scale. Recommended for working with clients that have warm or neutral hair color. The base is yellow. The particles are fine - sized. The ink is highly liquid and only requires dilution with a special diluent for adjusting the colorant concentration.

GRAY HARBOR +

INGREDIENTS Aqua, Hamamelis, CI 21160, CI 77266, CI 21095.

DESCRIPTION Neutral blond pigment for ash blondes. Handles aged skin really well. Designed for phototypes II (Nordic) according to Fitzpatrick scale. Recommended for working with clients with cool hair color. The base is yellow. The particles are fine - sized. The ink is highly liquid and only requires dilution with a special diluent for adjusting the colorant concentration.
